

What is the Home Based Services Program

The Home-Based Services Program is an intensive family-skill building program which serves youth (age 7 – 17) and their families living in Pitt County. Referrals are received from parents, court counselors, and school guidance counselors. Youth who participate in the Home-Based Services Program are generally struggling behaviorally at home and school. The program is funded through the Pitt County Juvenile Crime Prevention Council and while it is not necessary that the youth be involved with the juvenile justice system, one of our goals is to reduce or avoid future involvement with the

Three-tier Approach

The Home-Based Services Program is unique because it provides services to youth and families in their home. This unique approach provides the opportunity for services to be individualized to meet a family's needs. Services are curriculum based and use a three tier approach to enhance family functioning. This "three-tier approach" is accomplished through weekly individual sessions with the youth, their parents/guardians, and then collective group sessions with the family. Home Based Services offers wonderful supplemental programs for students and their families in an effort to help improve the quality of life for families and enhance opportunities for children.
